## Invisalign Teen™

The clear alternative to braces – designed for today's teen patients **clear . comfortable . effective**

Your phone is wireless. Your computer too. Why aren't your braces?

Invisalign Teen is the clear alternative to conventional metal braces, providing a nearly invisible way to straighten your teeth. It's clear, comfortable and best of all it's almost invisible – so no one will know you have them on. Over a million people worldwide have been treated with Invisalign.

**Free your Smile – go wireless! With Invisalign Teen.**
